Career Objective

Motivated B.Sc. Computer Science student aspiring to work as a **Software Engineer**, with knowledge of programming, DSA, MERI Blockchain. Passionate about building innovative solutions and enhancing software development skills.

Technical Skills

- Programming Languages: C, C++, Python, JavaScript
- Web Development: MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Core Concepts: DSA, OOPs
- Database: MySQL, MongoDB
- Tools: Git, GitHub, VS Code
- Emerging Technologies: AI, Blockchain

Work Experience

Software & Data Management Intern

DAPTA (Development Agency for Poor and Tribal Awakening)

Duration: 3 Months

- Worked on software and data management tasks for organizational operations.
- Managed digital records, databases, and documentation efficiently.
- Assisted with backend systems, REST APIs, and technical operations.

Education

Maa Manikeshwari University	2024 - 2027
B.Sc in Computer Science	GPA : 8.17
Currently in 2 nd Year	
Young Blood Public School	2022-2024
12 th Science (PCMCs)	Grade : A

Projects

SkillConnect – Student Collaboration Platform	Github Live Demo
Full Stack Developer — MERN Stack	
• Built a student project collaboration platform integrating GitHub, real-time chat (WebSockets), and team tools — reducing app-switching. • Designed responsive UI and connected frontend with backend REST APIs.	
SmartAttendance – QR-Based Attendance System	Github Live Demo
Full Stack Developer — MERN Stack	
• Developed a QR-based, proxy-free attendance system with real-time data handling and student management features. • Deployed for academic use at Maa Manikeshwari University.	
CraftChain – Blockchain-Based Handicraft Authentication Platform	Github
Project Developer — Blockchain & Web Technologies	
• Built a blockchain platform using Solidity smart contracts and MetaMask to authenticate Odisha handicrafts and reduce middlemen. • Improved transparency, fair credit, and earnings for local weavers.	

Achievements

- 1st Place – Algo to Code Competition Parala Maharaja Engineering College (PMEC), Berhampur
- Best Innovation Idea Award Nalanda Institute of Technology (NIT), Bhubaneswar — recognized for an innovative Blockchain-based idea
- Odisha AI Hackathon Winner Won for developing an innovative AI-based solution

Languages

English (Professional), Hindi (Fluent), Odia (Native)
